

I have recently learned that the FCC is thinking about taking national stations off the air because of the question if it benefits local communities. I believe that it does. K Love is a very inspiring station besides the fact that I am a Christian and love their program. It is a listner supported station, so if the FCC decides to remove it, you are going to be telling people that pay taxes and have the right to support organizations that their money just went out the door, because you have removed what they support with their hard earned money. I plead with you to consider the fact that there is so much garbage on the radio and on the TV. I want my 8 month old daughter to be able to grow up listening to a station as positive and encouraging as K-Love. Thank you for your time and God Bless You.
